Portfolio Information as of: December 31, 2015

Total property assets (including investments in real estate companies):	65,210,000 EUR
Total bank loans:	- EUR
Loan to value ratio (based on fair market values):	- %
Investment ratio (gross asset value to net asset value ratio):	100.0 %

- 1) In view of the liquidation of the separate asset no new investments will be done
- 2) Separate asset is in liquidation
- 3) The TER is calculated by dividing the total costs of the fund by the fund's average net asset value within the financial year and is denoted as a percentage as of September 30°, 2015. Total costs include asset management fees, depository bank fees and other expenses pursuant to § 13 par. 5 BVB and exclude transaction costs.
- 4) Fees to be paid by the Fund to the investment company and to the depository bank.

The information in this fact sheet was compiled diligently and to the best of our knowledge. However, no liability is accepted for errors or omissions. The official sales prospectus and the annual report are the only legally binding documents for the purchase of fund units.

The performance was calculated based on the repurchase price and the re-investment of distributions. Previous performance is no guarantee for future performance. All calculations were done in Euros. Please note this brochure is only for advertising purposes.
